

Covid-19: When it is time to leave hospital

Information about going home from hospital if you have had Covid-19.

Coronavirus is also called Covid or Covid-19. If you have tested positive it means that you have got Covid-19.

You have been treated for Covid-19 in hospital.

1

You might have to do things differently when you go home.

2

Sun	Mon	Tue	Wed	Thu	Fri	Sat
						1
16	17	18	19	20	21	22
23	24	25	26	27	28	29
30	31					

You might need to isolate yourself when you go home.

Isolate means you must stay away from other people.

3

The nurse on the ward will be able to tell you how long you need to isolate for.

4

You will be asked to wear a face mask when you leave the ward to go home.

5

If you need to complete your isolation at home you must stay away from people.

6

You must not go out.

7

If you share your house with other people you must stay in your room.

8

You must have your meals in your room.

9

Your carer will tell you when you can start being with other people again.

10

If you have any questions or worries about going home to isolate talk to ward staff.

11

Remember – it is important to wash your hands regularly.

12
