NHS Foundation Trust

# Quality Strategy 2019–2024

# Executive Summary

Our collective intent is to create a culture of continuous improvement to develop the safety, experience and our responsiveness to the people we serve by delivering outstanding care everyday. To make this happen we will be implementing some exciting digital solutions and establishing principles and expectations for the involvement of patients, families, carers and the public in our improvement work.

We want our patients to be confident that the Trust is among the best in the world.

Respecting diversity, promoting equality and ensuring human rights helps to ensure that everyone using our services receives safe and quality care. Our commitment to quality improvement and our determination to get things right for our patients is clear in this strategy. As we gain more understanding of the different ways we can improve, we are in a better position than ever before to look critically at what we can do better, and test and apply improvements. Therefore, our quality strategy has 3 main aims.

We aim to:

1. Improve our understanding of quality by drawing insight from multiple sources (Insight)
2. Equip patients, colleagues and partners with the opportunity to co-design with us to improve (Involvement)

3. Design and support programmes that deliver effective and sustainable change (Improvement)

To achieve this, we are continuing our roll out of our programme of quality improvement training with the Gloucestershire Safety and Quality Improvement Academy (GSQIA) to build an organisation-wide culture of continuous improvement with our Quality Model and Quality Framework.

At the same time, our patients will have a stronger voice than ever before, and we will continue working closely with the people and communities we serve to make sure that the care they receive is centred on their needs – person-centred care.

We have delivered some inspiring improvement work across our hospital sites and want to build on the significant improvements led by colleagues across the Trust.

We want people working within and alongside the Trust to know that they

are providing the best service they can – Best Care for Everyone – and that what they do is important and valued.

This five year strategy is the plan by which we will continue our journey to achieve our ambitions and an outstanding rating in subsequent Care Quality Commission inspections as continuous quality improvement becomes our business as usual.

**Director of Quality and Chief Nurse:  
Steve Hams**

**Medical Director:  
Prof. Mark Pietroni**

**Chief Operating Officer:  
Dr. Rachael De Caux**

# Our approach

Outstanding care – we are recognised for the excellence of care and treatment we deliver to our patients.

## Our quality strategy aims to:

- ▶ Improve our understanding of quality by drawing insight from multiple sources (Insight)
- ▶ Equip patients, colleagues and partners with the opportunity to co-design with us to improve (Involvement)
- ▶ Design and support programmes that deliver effective and sustainable change (Improvement).

# Caring for our community

Our Quality Strategy has been developed through conversations with our colleagues; by listening and reviewing feedback from our community; by listening to our key stakeholders and by reviewing insight, indicators, data, feedback and intelligence.

## Insight

The NHS Long Term Plan sets out key ambitions for us for the next 10 years and as an organisation we will move into putting that plan into practice locally. We know from reviewing our insight data that if we focus on this plan and our own local priorities that we will make a real difference to the quality of our care. We have created this enabling Quality Strategy to deliver our Trust strategic objectives (Appendix one). We have developed six programmes of work (five are based on the CQC quality Domains) and we believe that if we meet our goals (described in the table opposite) we will see significantly improved outcomes for our patients.

## Involvement

Health care is a people business and so together we have been defining how we want to deliver services to our community. The quality of care that patients receive depends first and foremost on the skill and dedication of our colleagues as we know that engaged colleagues really do deliver better health outcomes. We also want our patients to be involved in improving our services and want them to co-design our improvements with us.

## Improvement

Within each programme, we have key initiatives (primary and secondary drivers) which are designed to help us reach our desired outcome of excelling as an organisation. Along our journey, we have highlighted the milestones that we will achieve over the 5-year period. We are going to use metrics to measure and assess our improvement journey to drive our improvements in the right direction. Each programme has key indicators which we will report on in our Quality Account (Appendix 3).

## Programmes

<b>Be Well Led</b>	<b>Goal:</b> Our leadership, governance and culture are used to drive and improve the delivery of high-quality person-centred care.
<b>Improve Equality, Inclusion, Diversity and Human Rights</b>	<b>Goal:</b> We have a proactive human rights approach to understanding the needs and preferences of people in our care that promotes access and equality.
<b>Improve Experience: Caring</b>	<b>Goal:</b> People are respected and valued as individuals and are empowered as partners in their care, practically and emotionally.
<b>Improve Safety</b>	<b>Goal:</b> People are protected by a strong comprehensive safety system, and a focus on openness, transparency and learning when things go wrong.
<b>Improve Effectiveness</b>	<b>Goal:</b> Outcomes for people who use services are consistently better than expected when compared with other similar services.
<b>Improve Responsiveness</b>	<b>Goal:</b> Services are tailored to meet the needs of individual people and are delivered in a way to ensure flexibility, choice and continuity of care.

# Where we are

## Our regulator

We are recognised for our great care and treatment and this is evidenced by our CQC rating overall as “Good” by CQC. However, in the Responsive Domain we have been rated as Requires Improvement as we are not delivering all the NHS Constitution standards and pledges reliably and consistently.

## Our service areas

Our ward and service areas are being rated by our Nursing Assessment and Accreditation Scheme (NAAS) and care standards are improving.

## Our Gloucestershire Improvement Academy (GSQIA)

We have trained colleagues in improvement methodologies so that they can improve our services

- ▶ Colleagues trained First Level Bronze: 1804
- ▶ Quality Improvement Project Silver: 126
- ▶ Gold Quality Improvement Coach: 8

## Our patients' feedback

We receive feedback from our patients and they rate us on average as 8.0/10 within our National Survey programmes and we benchmark as “about the same” as other Trusts in most sections and most questions.

## Our colleagues

Our Staff Survey engagement score is 6.8/10 (best Trust score 7.8/10).

# Where we want to get to

## Our regulator

We want CQC to rate us overall as “Outstanding” when they next come and inspect us.

In the Responsive Domain, we want to be delivering all the NHS Constitution standards and pledges reliably and consistently (top 20% of Trusts).

## Our patients’ feedback

We want our patients to provide us feedback that shows that we are making improvements to their experience as when we benchmark against our peers as we will obtain more “Better” scores in our National Survey Programme scores.

## Our service areas

We want 50% of our ward and service areas to be rated by our Nursing Assessment and Accreditation Scheme (NAAS) as “Blue”: Areas of Outstanding Care.

## Our colleagues

We will improve our engagement score so that we are in the top 10% of Trusts (Our score 2018: 6.8/10. Best Trust score, 7.8/10).

## Our Gloucestershire Improvement Academy (GSQIA)

“The Gloucestershire GSQIA way” – we will have trained our colleagues so that they know that they can improve services.

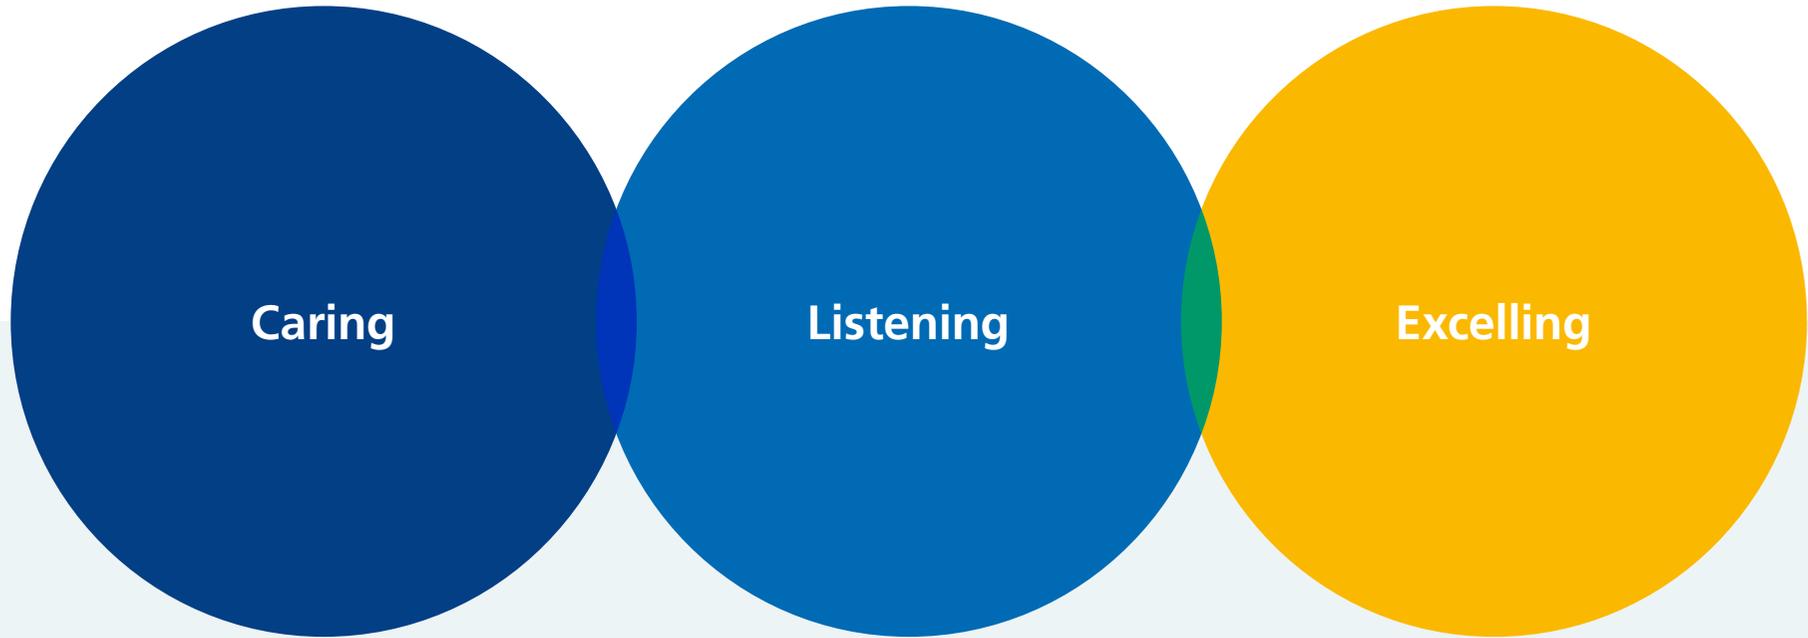

Every speciality and every specialist/ improvement committee has a recognised improvement programme.

We have Gold QI Coaches in every speciality.

# Our programmes metrics

Programmes	Goal	Measure in 2024
Be Well Led	Our leadership, governance and culture are used to drive and improve the delivery of high-quality person-centred care.	<ul style="list-style-type: none"> <li>▷ All relevant data presented longitudinally and in SPC.</li> <li>▷ 100% of all relevant quality improvement programmes will have patient, carer or family involvement and we will be co-designing our improvements</li> <li>▷ Our colleagues are proud of the organisation and would recommend our organisation as a place to work (best Trust score 2018 Staff Friends and Family Test 81% our score 55.9%)</li> </ul>
Improve Equality, Inclusion, Diversity and Human Rights	We have a proactive human rights approach to understanding the needs and preferences of people in our care that promotes access and equality.	<ul style="list-style-type: none"> <li>▷ Our Equality Delivery Assessment will be completed with 25% increase in “achieving” outcomes for the two patient goals across the protected characteristics.</li> <li>▷ Improved Staff Survey score for equality diversity and inclusion (best score in 2018 9.6/10 our score 9.2/10).</li> </ul>
Improve Experience: Caring	People are respected and valued as individuals and are empowered as partners in their care, practically and emotionally.	<ul style="list-style-type: none"> <li>▷ 10% increase in our “Better” scores in the CQC National Survey Programme (NSP) questions when benchmarked nationally.</li> </ul>
Improve Safety	People are protected by a strong comprehensive safety system, and a focus on openness, transparency and learning when things go wrong.	<ul style="list-style-type: none"> <li>▷ Our Staff Survey questions relating to our safety culture will improve so that we are in the top 10% of Trusts (2018: Our score, 6.5. Best Trust score 7.2)</li> </ul>
Improve Effectiveness	Outcomes for people who use services are consistently better than expected when compared with other similar services (better care for major health conditions: cancer, cardiovascular disease, stroke care, diabetes and respiratory disease).	<ul style="list-style-type: none"> <li>▷ Our outcomes for key clinical conditions are in the upper quartile when benchmarked with other Trusts.</li> <li>▷ We are in the top 20% of Trusts across the breadth of NHS Constitutional standards</li> </ul>
Improve Responsiveness	Services are tailored to meet the needs of individual people and are delivered in a way to ensure flexibility, choice and continuity of care.	<ul style="list-style-type: none"> <li>▷ Inspected and rated by the CQC as ‘Good’ in the responsive domain</li> <li>▷ We are in the top 20% of Trusts across the breadth of the NHS Constitution Standards</li> </ul>

# Values

## Caring

**We care for our patients and colleagues by showing respect and compassion.**

Our ambition is to continue to develop how we recruit and retain colleagues who recognise the importance of caring, understanding the needs of others and responding to these with kindness, dignity and professionalism.

## Listening

**We listen actively to better meet the needs of our patients and colleagues.**

We value the diversity of our colleagues and aspire to be inclusive and recognise everyone’s contributions. We believe we can do this by acknowledging one another, actively listening and responding appropriately and clearly.

## Excelling

**We are a learning organisation and we strive to excel. We encourage a culture of improvement in the Trust and we expect our colleagues to be and do the very best they can.**

Our Journey to Outstanding will enable us to excel in our patient care and colleague services to fulfil our purpose to improve the health, wellbeing and experience of the people we serve.

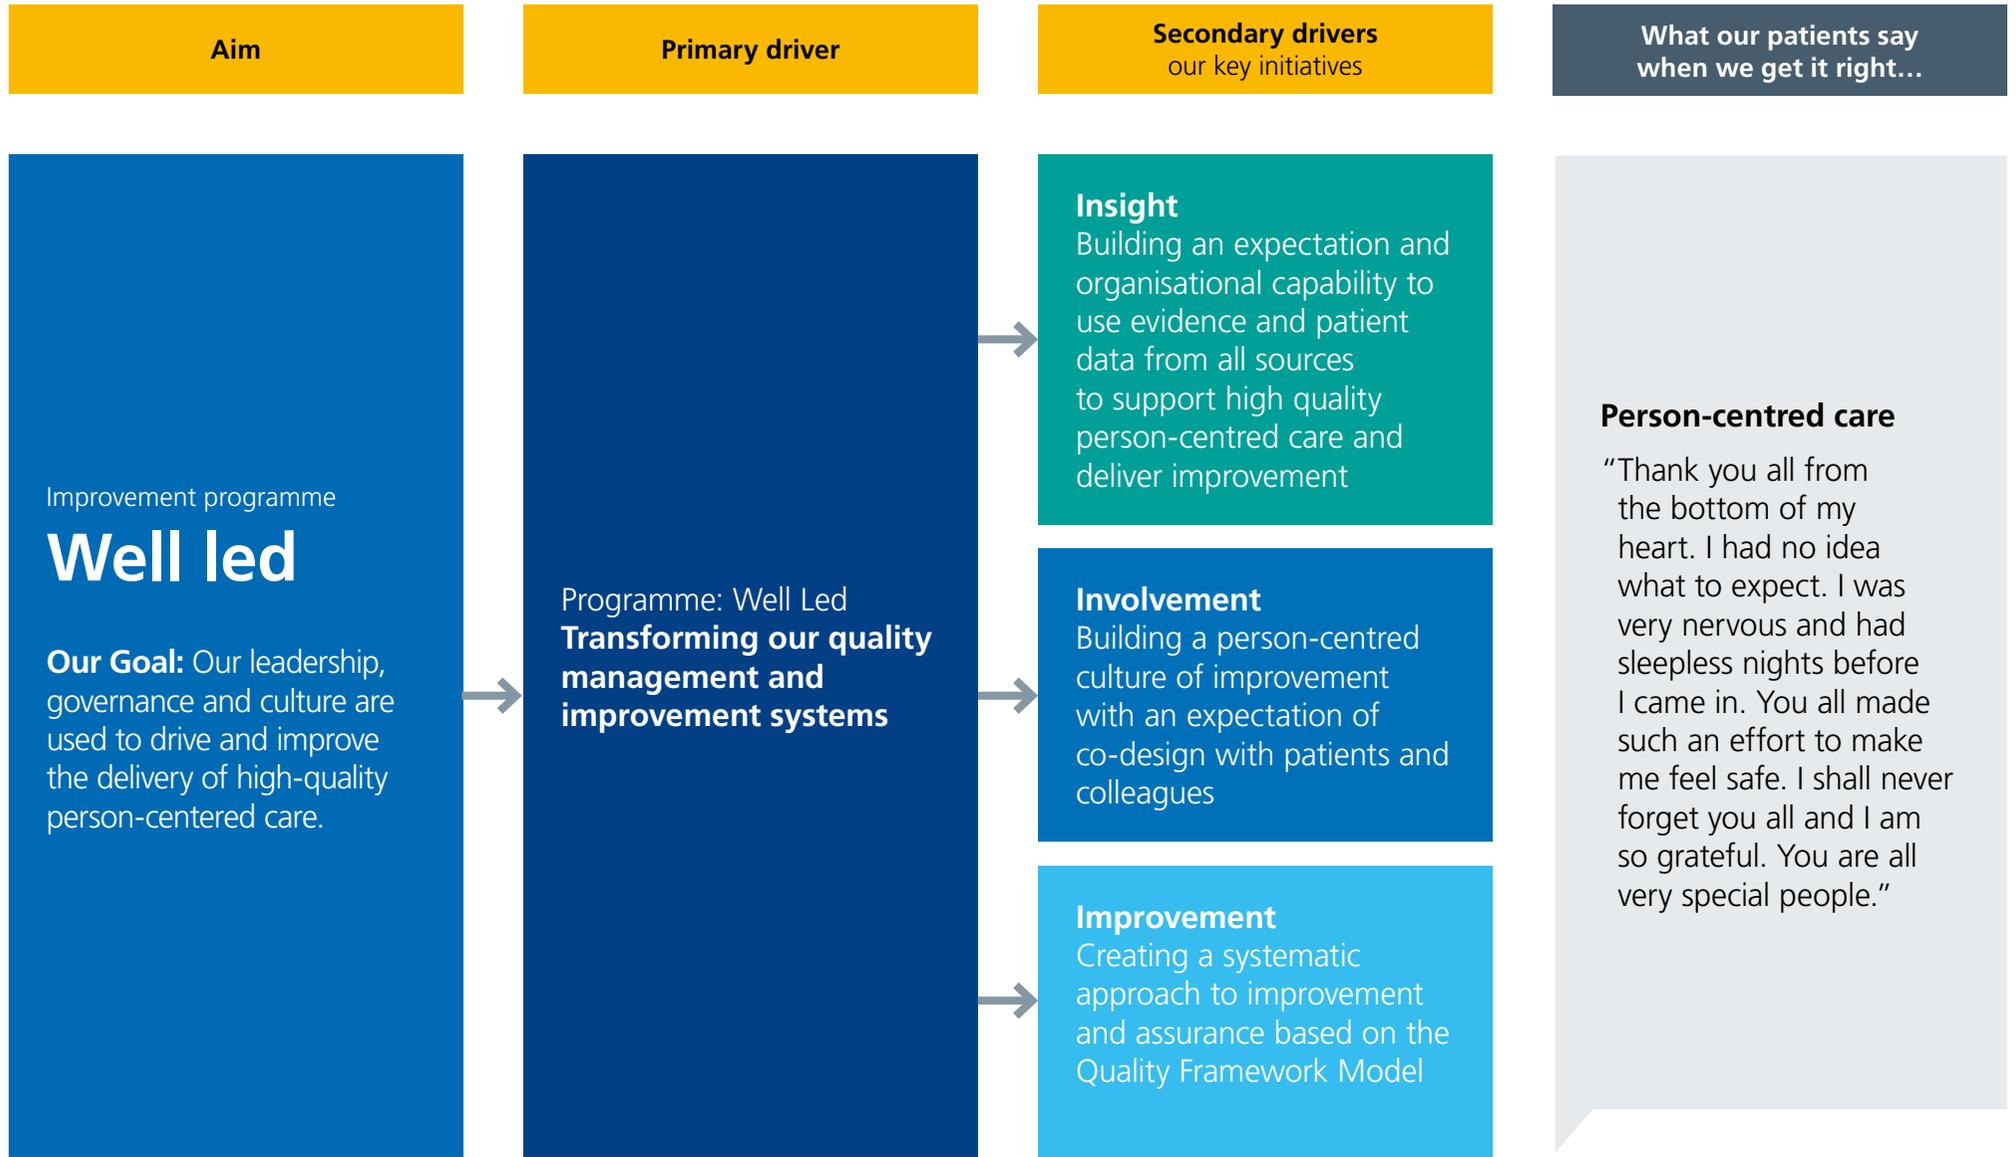

## Drivers of the strategy: Well Led

Our Goal: Our leadership, governance and culture are used to drive and improve the delivery of high-quality person-centred care.

### Key metric for delivery of the goal

- ▶ 100% of relevant quality improvement programmes will have patient, carer or family involvement and we will be co-designing our improvements
- ▶ Our colleagues are proud of the organisation and would recommend us as a place to work (best Trust score 2018 Staff Friends and Family Test 81% our score 59%)

# Programme: Well led

Key initiatives	Year 1–2 milestones	Year 3–4 milestones	Year 5	Key metrics
<p><b>Insight:</b>  <b>Building an expectation and organisational capability to use evidence and patient data from all sources to support high quality person-centred care and deliver improvement</b></p>	<ol style="list-style-type: none"> <li>1. Identified Trust level quality initiatives have a clear evidence base</li> <li>2. Data in formal reports is always displayed in longitudinal format in reports and dashboards</li> <li>3. GSQIA establish a flow coach faculty to effective use data for system improvement</li> <li>4. Our Quality and Performance Report will be connected to improvement programmes</li> </ol>	<ol style="list-style-type: none"> <li>1. Data is managed through digital/ electronic means and available from Ward to Board</li> <li>2. Programmes of improvement at all levels have referenced evidence</li> </ol>	<ol style="list-style-type: none"> <li>1. Outcomes for key clinical pathways/ condition are in the upper quartile benchmark</li> </ol>	<p><b>Where we will be 2024</b></p> <p>Increased number of evidence based searches from Library services</p> <p>All Trust level reports presented with longitudinal data</p>
<p><b>Involvement:</b>  <b>Building a patient centred culture of improvement with an expectation of codesign with patients and colleagues</b></p>	<ol style="list-style-type: none"> <li>1. Patients, Carers and colleagues are visibly involved in improvement</li> <li>2. There is an established Patient Experience Faculty as part of GSQIA</li> <li>3. Executives each sponsor a key strategic project using QI methodology supported by GSQIA</li> </ol>	<ol style="list-style-type: none"> <li>1. Colleagues can describe multiple projects using co-design</li> <li>2. There is a rolling programme of Executive led QI projects</li> <li>3. There is a visible programme of cross boundary pathway projects with the ICS and partners</li> </ol>	<ol style="list-style-type: none"> <li>1. 100% of relevant QI projects have active patient involvement or patient feedback</li> <li>2. The Trust is recognised as outstanding for improvement across all areas of the Trust</li> <li>3. The Trust is recognised for codesign as outstanding practice by the CQC</li> </ol>	<p>Increased numbers of QI projects have active patient involvement or patient feedback</p> <p>QI projects are aligned with long term strategic objectives</p>

Key initiatives	Year 1–2 milestones	Year 3–4 milestones	Year 5	Key metrics
<p><b>Improvement (systems): Creating a systematic approach to improvement and assurance based on the Quality Framework model</b></p>	<p><b>1. 50% of specialties and departments have:</b></p> <ul style="list-style-type: none"> <li>a. An active improvement programme</li> <li>b. Gold QI coach</li> <li>c. Identified local quality assurance indicators.</li> </ul> <p><b>2. Expert committees have</b></p> <ul style="list-style-type: none"> <li>a. An active improvement programme</li> <li>b. Gold QI coach</li> <li>c. Identified local quality assurance indicators.</li> </ul> <p><b>3. Divisions</b></p> <ul style="list-style-type: none"> <li>a. Create a monthly standardised assurance report identifying areas for enhanced surveillance based on their quality data.</li> <li>b. Monitor progress in relation to the well-led framework (via inspections published)</li> <li>c. Publish a definitive guide to who does what in relation to quality (reviewed annually)</li> </ul> <p><b>4. Speaking Up</b></p> <ul style="list-style-type: none"> <li>a. Continue to develop our resolution model for “speaking up”.</li> <li>b. Share learning across in the organisation to demonstrate responsiveness.</li> <li>c. Monitor themes and trends of speaking up.</li> <li>d. Recruit more Freedom to Speak Up Guardians so that our colleagues have choice in who they see.</li> <li>e. Embed our Trust values and define our associated behaviours.</li> <li>f. Launch ‘Civility Saves Lives’ and integrate with defined organisational behaviours.</li> </ul>	<p><b>1. 95% specialties and departments have</b></p> <ul style="list-style-type: none"> <li>a. An active improvement programme</li> <li>b. Gold QI coach</li> <li>c. Identified local quality assurance indicators</li> </ul> <p><b>Speaking up</b></p> <ul style="list-style-type: none"> <li>a. Completion of a staff survey.</li> <li>b. Measure our success using feedback mechanisms such as the Staff Survey.</li> </ul>	<p>All specialties and Committees have rolling programmes of improvement with clear measurement indicators</p> <p><b>Speaking up</b> Civility Saves Lives campaign embedded in our culture.</p>	<p>Proportion of specialties &amp; departments that have Gold improvement coaches.</p> <p>Number of Specialties with improvement programmes &amp; dashboards</p> <p>Expert committees and improvement steering groups with improvement programmes &amp; dashboards</p> <p>Standardised divisional assurance and improvement structures and processes are embedded.</p> <p>Improved speaking up survey results and Staff Survey results (staff environment - bullying and harassment score 8.0/10 now and 8.5/10 by 2024)</p> <p>Established programmes for the Quality Account (Appendix 3).</p>

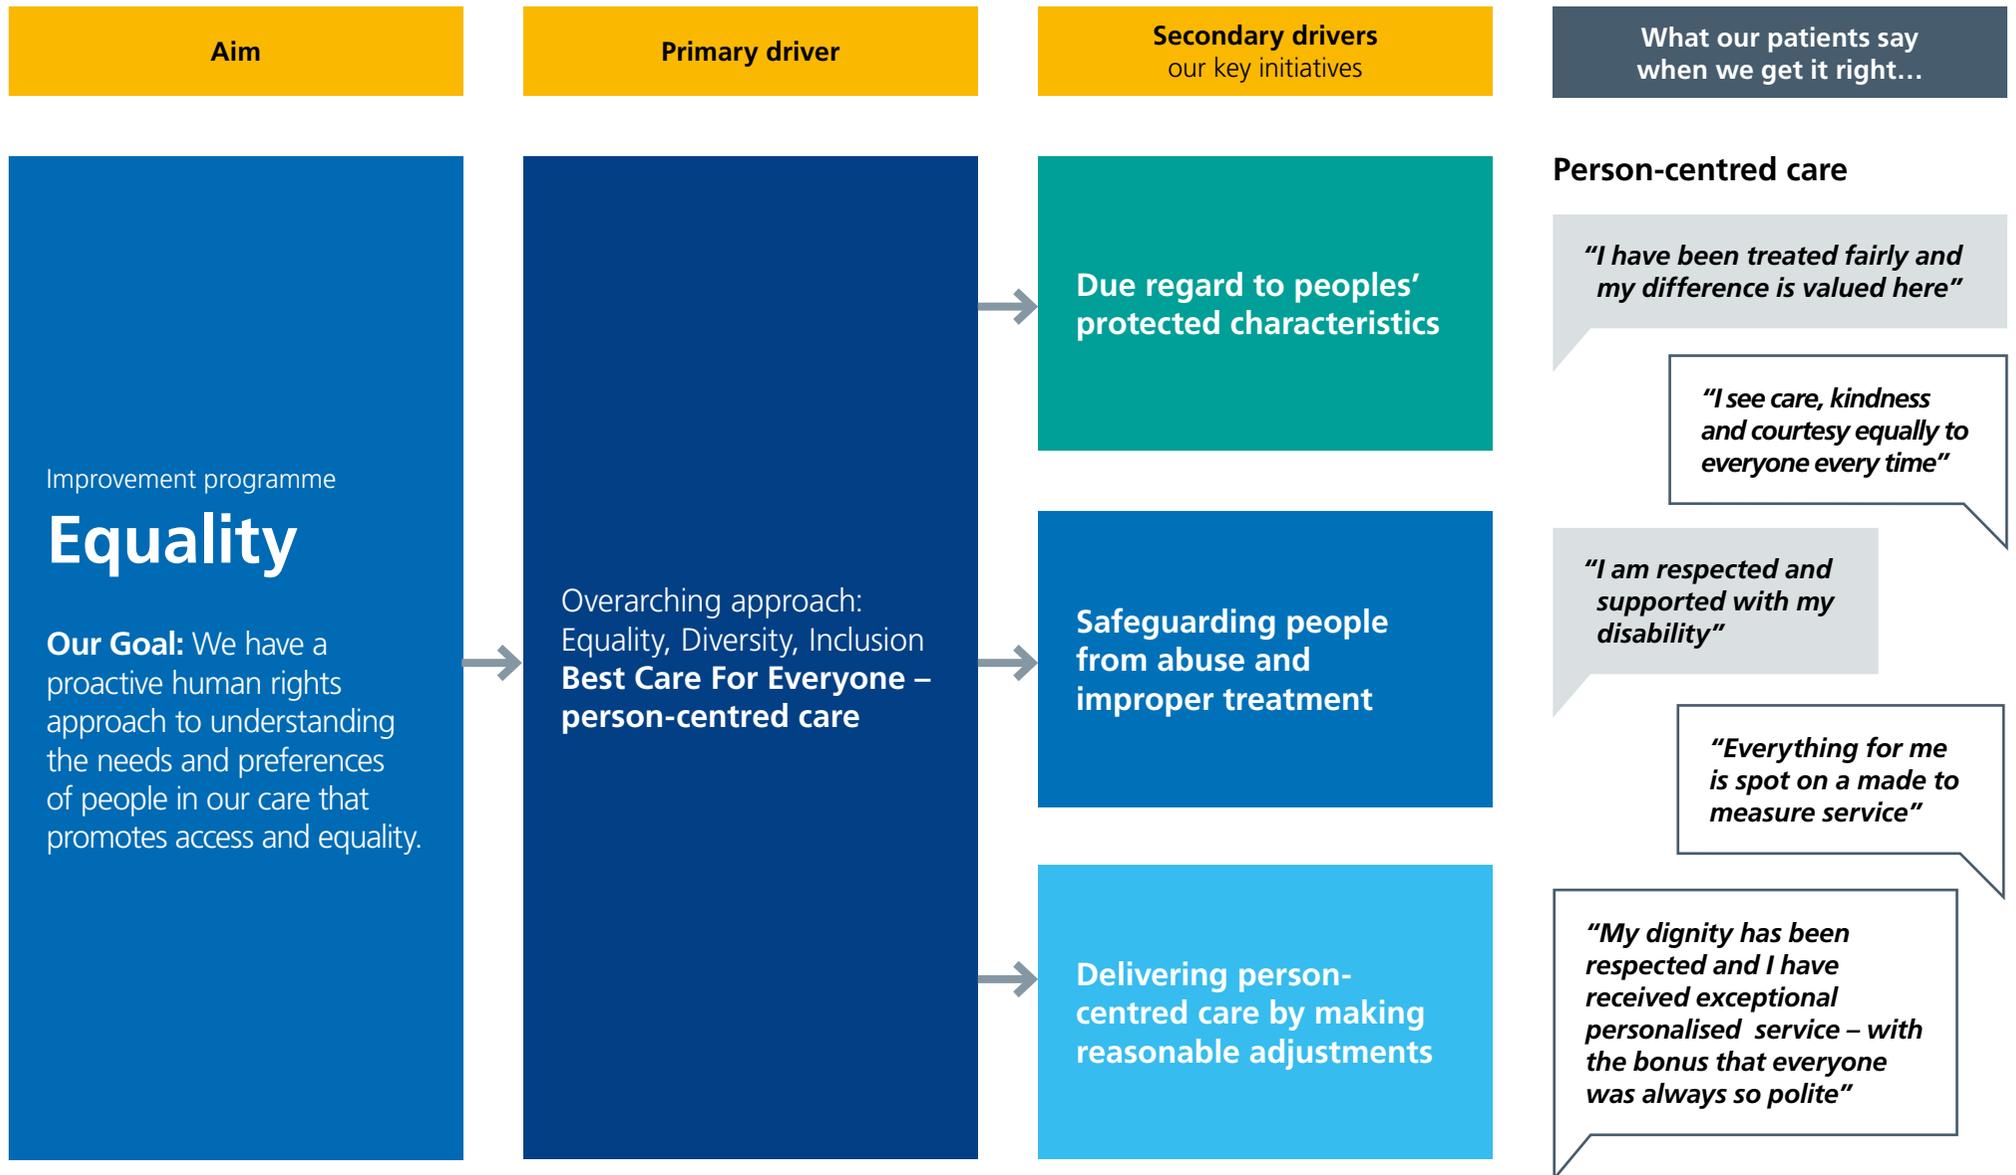

## Drivers of the strategy: Equality, Diversity, Inclusion and Human Rights

Our goal: We have a proactive human rights approach to understanding the needs and preferences of people in our care that promotes access and equality

### Key metric for delivery of the goal

- ▶ Our Equality Delivery Assessment will be completed with 25% increase in “achieving” outcomes for the two patient goals across the protected characteristics
- ▶ Improved Staff Survey score for equality diversity and inclusion (best score 2018 9.6/10 our score 9.2/10)

# Programme: Equality, Diversity, Inclusion and Human Rights

Key initiatives	Year 1–2 milestones	Year 3–4 milestones	Year 5	Key metrics
<p><b>Due regard for protected characteristics</b></p> <div data-bbox="152 379 430 662" style="background-color: #e0e0e0; padding: 5px; margin-bottom: 10px;"> <p><b>NHS Constitution</b> You have the right to be treated with dignity and respect in accordance with your human rights (right).</p> </div> <div data-bbox="152 719 430 1289" style="background-color: #e0e0e0; padding: 5px;"> <p><b>NHS Constitution</b> That if you are admitted to hospital, you will not have to share sleeping accommodation with patients of the opposite sex, except where appropriate, in line with details set out in the Handbook to the NHS Constitution (pledge)</p> </div>	<p><b>Insight</b></p> <ol style="list-style-type: none"> <li>1. Strengthen our <b>protected characteristics data collection</b>. Complete our annual protected characteristics data review and plan our improvements where the need is greatest.</li> <li>2. Work with our system partners to review health outcomes data across the protected characteristics and develop a <b>plan to improve equity of access and health outcomes</b> (NHS Plan 2019).</li> <li>3. Review our National Survey Data as each survey is published in relation to the specific questions related to kindness and respect; privacy and dignity; and emotional support.</li> <li>4. Complete <b>Quality and Equality Impact Assessments (EIA)</b> for all our service change and transformation projects.</li> <li>5. Regular review of <b>Mixed Sex Accommodation</b> breach data and develop our improvement plan.</li> </ol> <p><b>Involvement</b></p> <ol style="list-style-type: none"> <li>6. Recruit and train <b>QI Volunteers from all protected characteristics</b> to be involved in our improvement work.</li> <li>7. Deliver our two patient experience equality objectives derived from our review of the <b>Equality Delivery System (EDS) toolkit</b>.                     <ul style="list-style-type: none"> <li>▷ Deliver open engagement sessions with our community</li> <li>▷ Develop a Person-Centred Care Charter</li> </ul> </li> </ol>	<ol style="list-style-type: none"> <li>1. Commence our review of the Equality Delivery System.</li> <li>2. Complete an annual review of protected characteristic data and plan improvements.</li> <li>3. ## Drivers of the strategy Improving Experience: Caring

Our goal: People are respected and valued as individuals and are empowered as partners in their care, practically and emotionally.

### Key metric for delivery of the goal

- ▶ 10% increase in our "Better" scores in the CQC National Survey Programme (NSP) questions when benchmarked nationally.
- ▶ Inspected and rated as "Outstanding" in the Caring Domain for at least two core services.

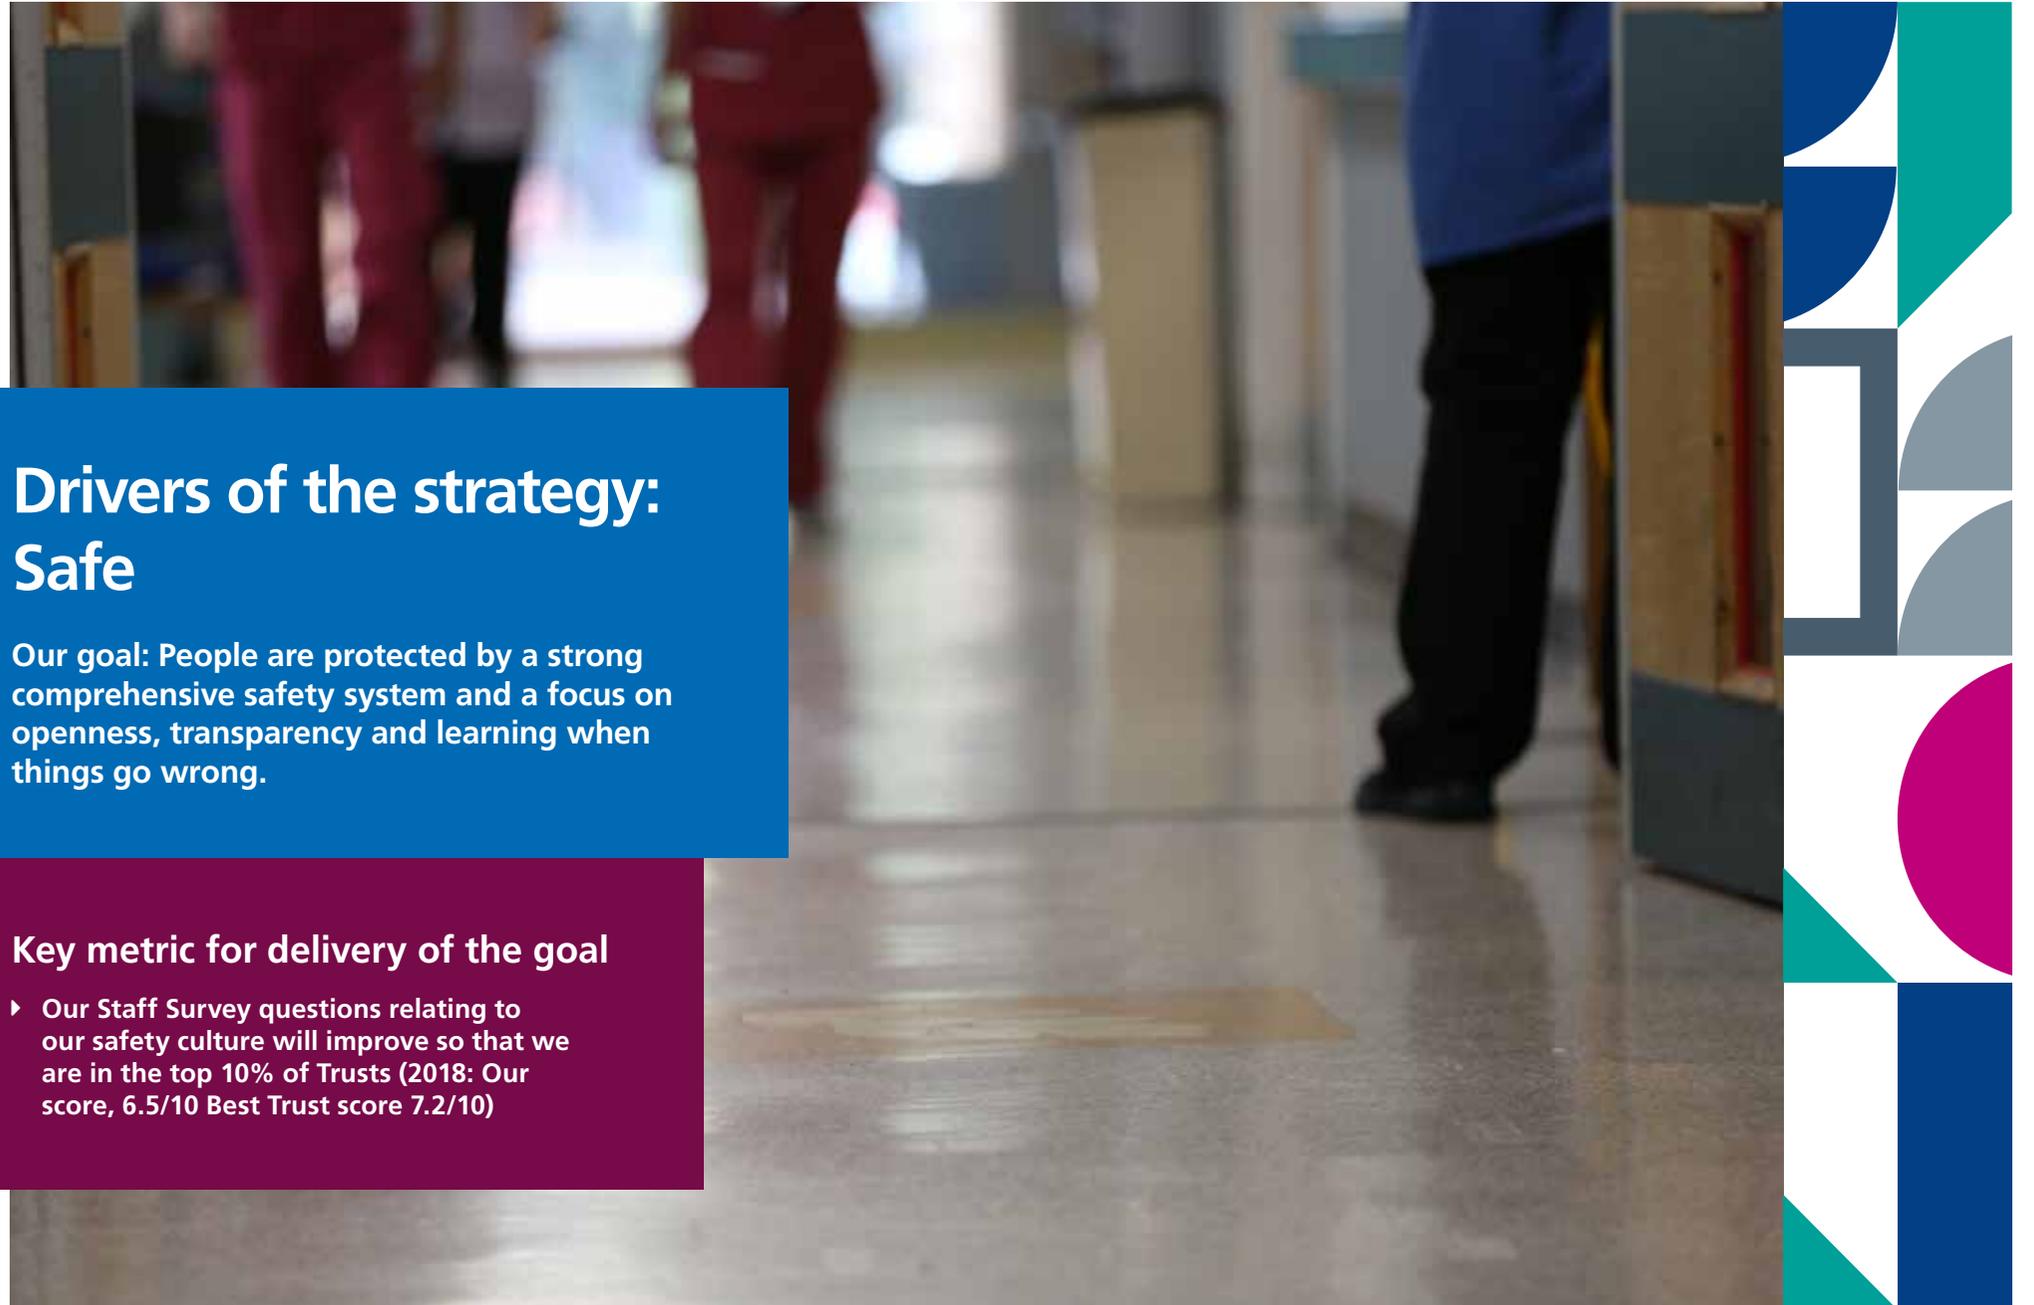

# Programme: Improve experience

Key initiatives	Year 1–2 milestones	Year 3–4 milestones	Year 5	Key metrics
<p><b>Insight</b>                      Making experience and insight data count to drive improvement and learning by using patient experience QI methodologies and rapid process improvement techniques</p>	<ol style="list-style-type: none"> <li>1. Roll out of real time survey data across all core services.</li> <li>2. Patient Experience Dashboards developed for Divisions to access their feedback data.</li> <li>3. Patient Experience Improvement Faculty established within the GSQIA to assist colleagues with their data and developing tools to collect and respond to it.</li> <li>4. Develop systems to map patient experience improvement across the Trust so that other teams can adopt ideas rapidly (roll out of the IHI “7 spreadly sins”)</li> <li>5. Adapt GSQIA training to include more patient experience measures, tools and techniques.</li> </ol>	<ol style="list-style-type: none"> <li>1. Patient Experience Improvement Faculty within the GSQIA further established with Divisional Leads.</li> <li>2. The patient is at the heart of all our integrated pathways.</li> </ol>	<ol style="list-style-type: none"> <li>1. Improved Staff Survey results across patient experience themes to meet best in class peers.</li> </ol>	<p><b>Where we will be 2024</b></p> <p>10% increase in our “Better” scores in our National Survey Programme (NSP) scores when benchmarked nationally.</p>

Key initiatives	Year 1–2 milestones	Year 3–4 milestones	Year 5	Key metrics
<p><b>Involvement</b> Embedding an organisation wide approach to using behavioural insight to shape service redesign and prompt behaviour change (kindness, respect and compassion; privacy and dignity; involvement in decisions)</p> <div data-bbox="152 574 488 813" style="background-color: #e0e0e0; padding: 5px; margin-top: 10px;"> <p><b>NHS Constitution</b> You have the right to be treated with dignity and respect in accordance with your human rights (right).</p> </div>	<ol style="list-style-type: none"> <li>1. Co-production introduced as our tool of choice and includes colleagues and patients when we redesign services.</li> <li>2. Best Care for Everyone Programme – our continuous improvement patient experience collaborative developed and rolled out.</li> <li>3. Person-centred Care Charter (EDS2 equality objective) being developed with colleagues.</li> <li>4. Programme of Always Events® started with involvement from colleagues and patients.</li> <li>5. Community engagement and listening events held (EDS2 equality objective).</li> <li>6. Roll out of the work to embed our values and define associated behaviours for colleagues.</li> <li>7. Launch of the ‘Civility Saves Lives’ programme of work.</li> <li>8. Deliver an improved Patient Advice and Liaison Service (PALs) by having a more responsive model with PALs staff visiting wards and service areas.</li> <li>9. Update of our policies and processes for using our volunteers to help to measurably improve outcomes for people within our services.</li> </ol>	<ol style="list-style-type: none"> <li>1. Programme set up, delivered and then incorporated into the GSQIA.</li> <li>2. Community engagement and listening events held (EDS2 equality objective).</li> <li>3. Person-centred Care Charter (EDS2 equality objective) in progress.</li> </ol>	<ol style="list-style-type: none"> <li>1. Always Events® programmes established in every Division.</li> <li>2. Improve experience indicators as measured by National Survey Programme questions in all five surveys.</li> </ol>	<p><b>Where we will be 2024</b></p> <p>Inspected and rated as Outstanding in the Caring Domain for at least two core services.</p> <p>Improvement to Staff Survey questions related to using patient feedback to improve services</p> <p>22c Staff survey question using patient feedback scores in the upper quartile of all Trusts (72.5%)</p>

Key initiatives	Year 1–2 milestones	Year 3–4 milestones	Year 5	Key metrics
<p><b>Improvement</b> Setting clear priorities for patient experience quality improvement that are aligned and where the need for improvement is greatest (to be reported in the Quality Account)</p>	<p>1. ## Drivers of the strategy: Safe

Our goal: People are protected by a strong comprehensive safety system and a focus on openness, transparency and learning when things go wrong.

### Key metric for delivery of the goal

- ▶ Our Staff Survey questions relating to our safety culture will improve so that we are in the top 10% of Trusts (2018: Our score, 6.5/10 Best Trust score 7.2/10)

# Programme: Improve safety

Key initiatives	Year 1–2 milestones	Year 3–4 milestones	Year 5	Key metrics
<p><b>Insight and involvement</b> Create and maintain a Just Culture</p>	<ol style="list-style-type: none"> <li>1. Key safety systems and management behaviours developed that support a positive safety culture.</li> <li>2. Establish Safety Culture survey approach.</li> <li>3. Maternal and neonatal safety improvement programme (MNSIP)                             <ul style="list-style-type: none"> <li>▷ Reduce the rate of stillbirths, neonatal deaths and asphyxial brain injury by 50% by 2020</li> </ul> </li> <li>8. Reduction and control of hospital acquired infections</li> </ul>			

## Drivers of the strategy: Effective

**Our goal:** Outcomes for people who use services are consistently better than expected when compared with other similar services.

### Key metric for delivery of the goal

- ▶ Our outcomes for key clinical conditions are in the upper quartile when benchmarked with other Trusts (cancer, cardiovascular disease, stroke care, diabetes and respiratory disease)

# Programme: Improve effectiveness

## Person-centred care

*"After my surgery, I was brought back to the Ward from recovery by two staff members (who kindly checked on me twice to make sure I was ok). I was feeling quite unwell and the ward was very busy that day but that did not stop the care and compassion for me and others within the ward. Fantastic health care assistants who not only looked after me but my husband as well by making sure he had something to eat and drink. Nothing was too much trouble for them."*

# Key initiatives, milestones and metrics

We want health outcomes for people who use our services to be positive, consistent and regularly exceed expectations for our community. We will:

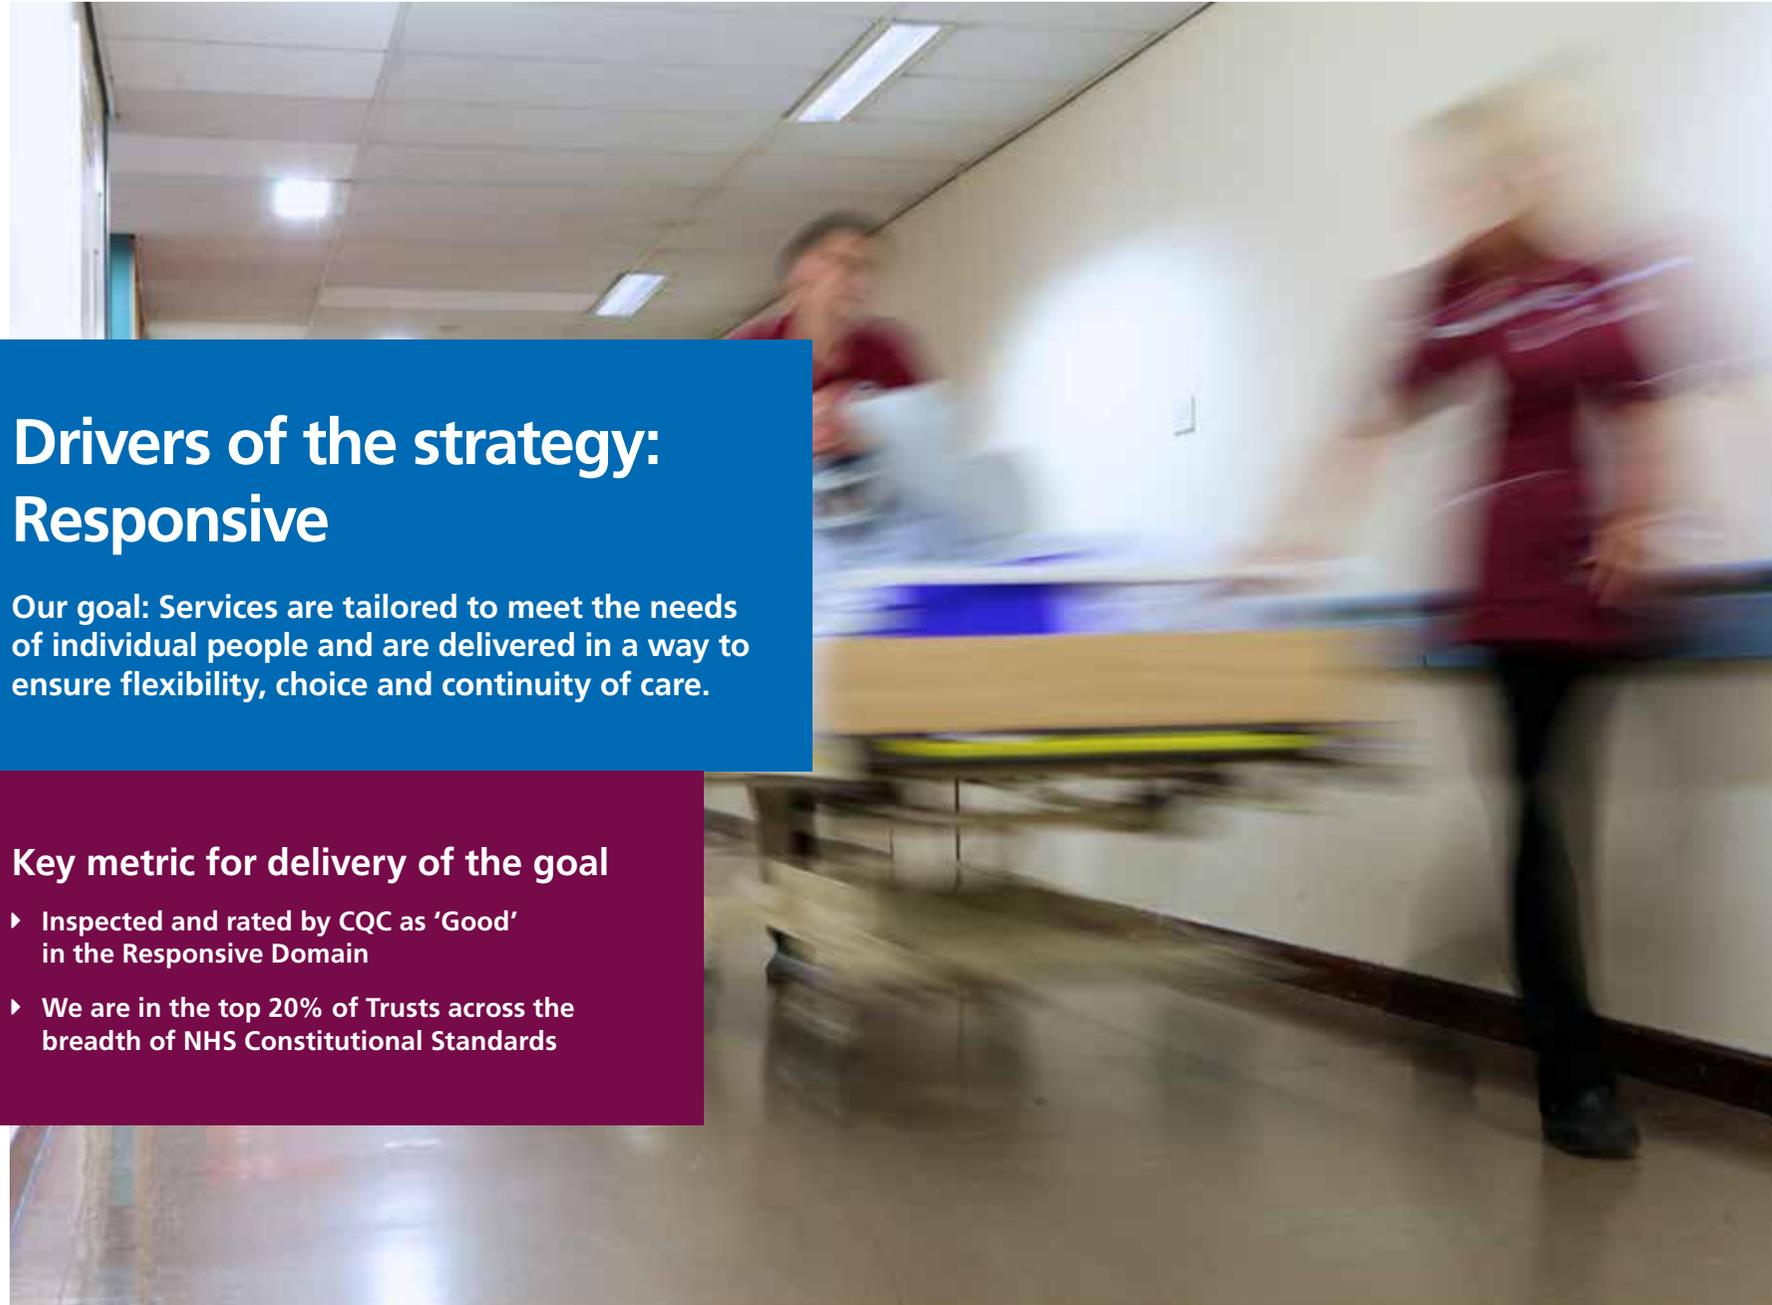

- ▷ Proactively participate in benchmarking, peer review activities and approved accreditation schemes as we want our high performance to be recognised by credible external bodies.
- ▷ Proactively support our colleagues to encourage them to share best practice.
- ▷ Commit to teams working collaboratively to find innovative and efficient ways to deliver more joined up care for people using our services.

Key initiatives	Year 1–2 milestones	Year 3–4 milestones	Year 5	Key metrics
<p><b>Insight</b> Colleagues routinely draw on internal and external evidence from all sources to achieve best clinical outcomes promoting quality of care</p>	<ol style="list-style-type: none"> <li>1. Internal data reports are standardised with each specialty identifying key local measures in 50% of Specialties and Committees (What’s Important to your patient / service).</li> <li>2. Specialties conduct gap analysis and evidence searches on all new relevant NICE guidance, NCEPOD and other national reports and data sources to inform their improvement programmes.</li> </ol>	<ol style="list-style-type: none"> <li>1. Data reporting is managed through electronic paperless systems.</li> </ol>	<ol style="list-style-type: none"> <li>1. Electronic Data provided from safety, patient experience, audit and BI sources are routinely used to inform Specialty and Committee Improvement programmes.</li> <li>2. ## **Appendix 1: Trust Strategic Objectives**

### Outstanding care

We are recognised for the excellence of care and treatment we deliver to our patients, evidenced by our CQC Outstanding rating and delivery of all NHS Constitution standards and pledges.

### Compassionate workforce

We have a compassionate, skilful and sustainable workforce, organised around the patient, that describes us as an outstanding employer who attracts, develops and retains the very best people.

### Quality improvement

Quality improvement is at the heart of everything we do; our staff feel empowered and equipped to do the very best for their patients and each other.

### Care without boundaries

We put patients, families and carers first to ensure that, in partnership with our local health and social care partners, care is delivered and experienced in an integrated way ‘without boundaries’.

### Involved people

Patients, the public and staff tell us that they feel involved in the planning, design and evaluation of our services.

## Our Strategic Objectives: 2019 to 2024

The objectives have been derived from a process of combining national, regional and local context and how we plan to respond, our strategic analyses, and the messages we heard from our engagement programme. They have been tested with members of staff from across the Trust, and other stakeholders, who have confirmed they articulate the scale and pace of our collective ambition.

### Centres of Excellence

We have established Centres of Excellence on our hospital sites that provide urgent, planned and specialist care to the highest standards, and ensure as many Gloucestershire residents as possible receive care within the county.

### Financial balance

We are a Trust in financial balance, with a sustainable financial footing evidenced by our NHSI Outstanding rating for Use of Resources.

### Effective estate

We have developed our estate and are working with our local health and social care partners, to ensure services are accessible and delivered from the best possible facilities that minimise our environmental impact.

### Digital future

We use our electronic patient record system and other technology to drive safe, reliable and responsive care, and link to our partners in the health and social care system to ensure joined up care.

### Driving research

We are a research active Trust providing innovative and ground breaking treatments; staff from all disciplines contribute to tomorrows evidence base enabling the Trust to be one of the best University Hospitals in the UK.

## **Appendix 2: Our Quality Management Framework and Structure**

# Our Quality Management Framework and Structure

Our structure to deliver our “Journey to Outstanding” for quality management is important and so we are taking a step changed approach to our current system based on best evidence and the approach of outstanding Trusts. End result = embedded quality and rated as an “Outstanding” Trust.

**Appendix 3: Improvement priorities to be reported  
within our Quality Account Year 1 2019/20**

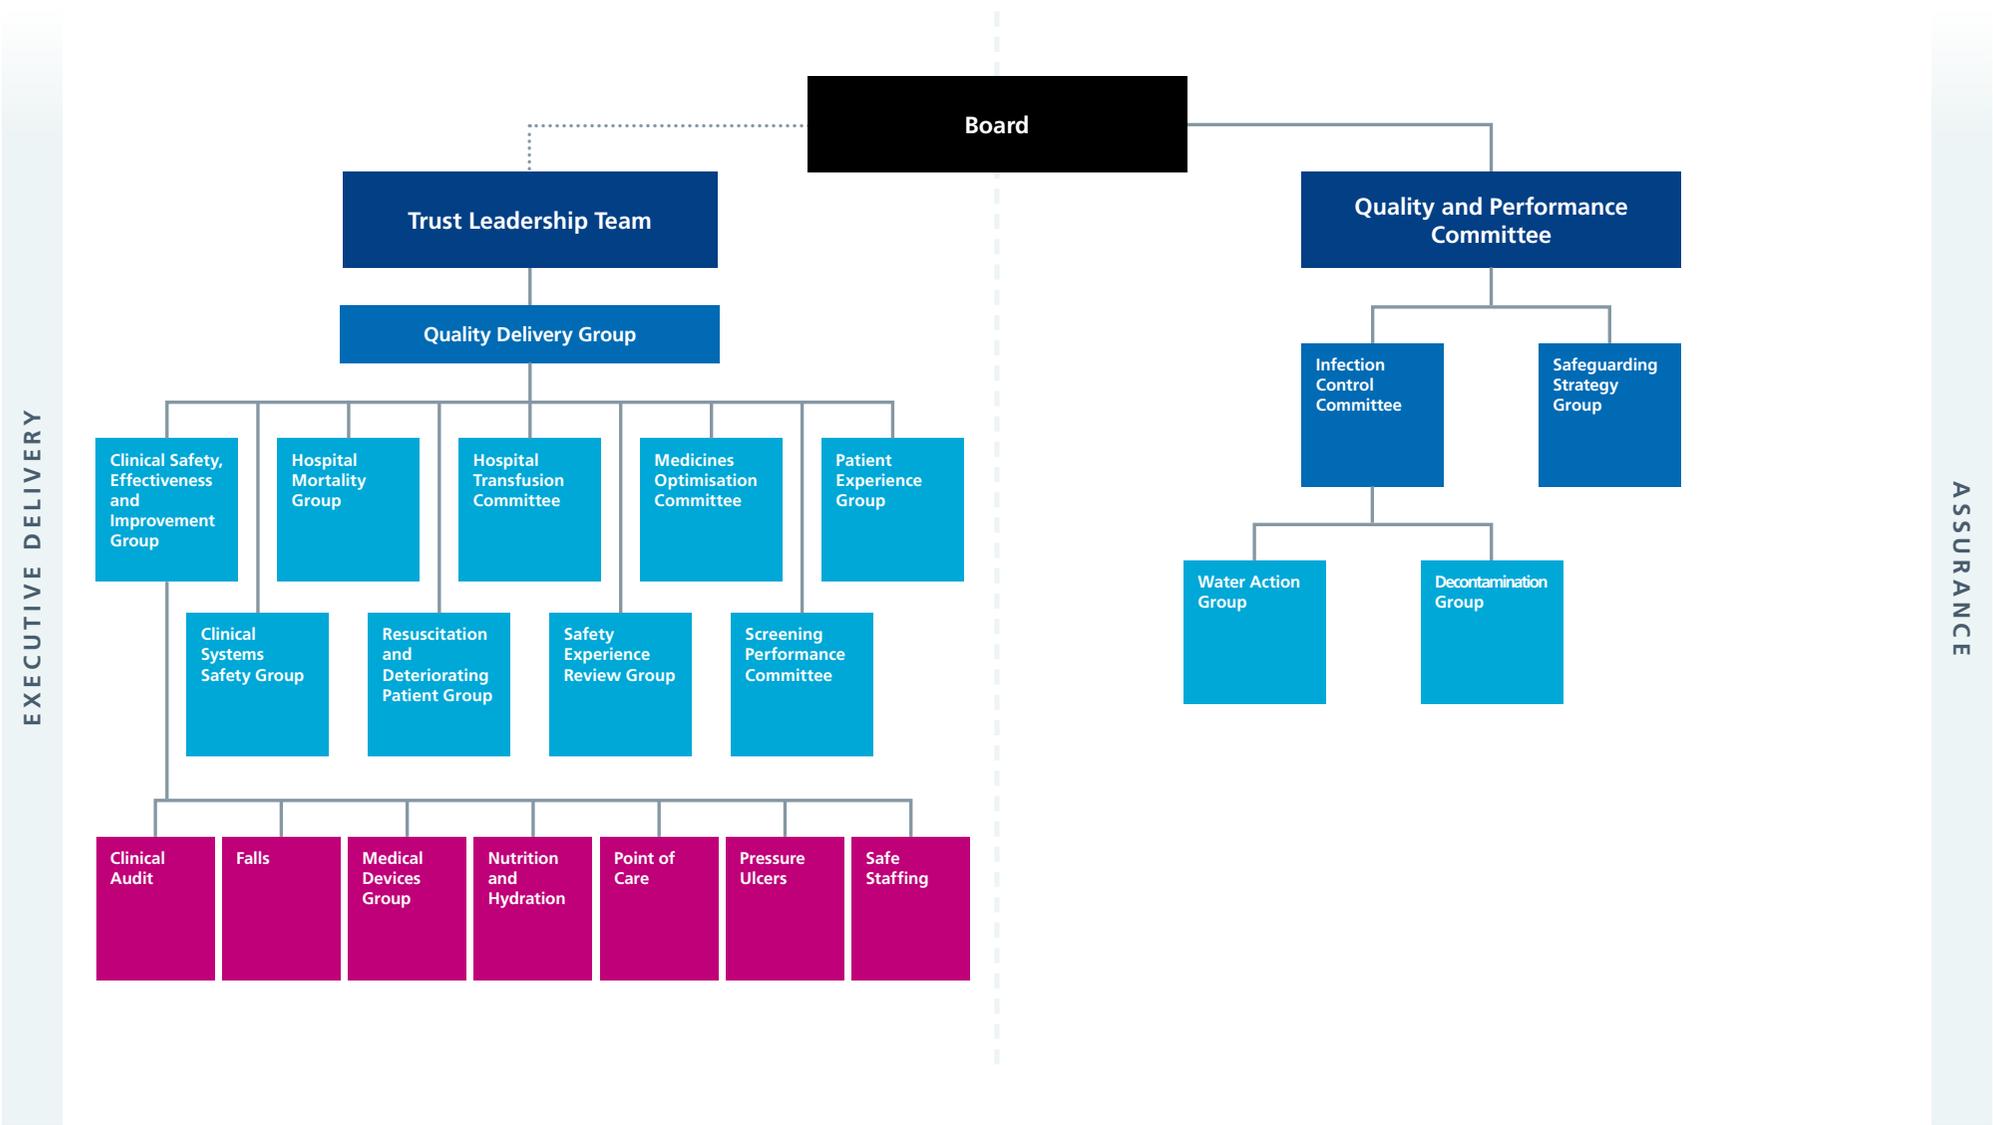

Priority quality indicator goals 2019/2020		Why we have chosen this indicator
<b>WELL LED: continuous improvement</b>	<p><b>Continuous quality improvement with the GSQIA</b></p> <p>To further enhance our quality improvement systems with support from the Quality Improvement by our Gloucestershire Safety and Quality Improvement Academy (GSQIA)</p>	<ul style="list-style-type: none"> <li>▷ To further embed our QI approach to enable us to be rated as an outstanding organisation by CQC.</li> <li>▷ CQC were impressed with our overall QI approach.</li> </ul>
	<p>To continue to develop our speaking up systems and processes through <b>Freedom to Speak Up</b></p>	<ul style="list-style-type: none"> <li>▷ This is an area that staff have indicated that they would like us to improve</li> <li>▷ National driver to improve after the Gosport Independent Enquiry.</li> <li>▷ Staff Survey results</li> </ul>
<b>EXPERIENCE: enhancing the way colleagues and patient feedback is used to influence care and service development</b>	<p>To improve patient experience of our <b>discharge processes</b></p>	<ul style="list-style-type: none"> <li>▷ Continuation of the safe and proactive discharge programme which was a Commissioning for Quality Improvement (CQUIN 19/20).</li> <li>▷ Our Adult Inpatient Survey data indicates this as an area of improvement.</li> </ul>
	<p>To improve <b>cancer patients’ experience</b></p>	<ul style="list-style-type: none"> <li>▷ In order to achieve an Outstanding rating for Cancer Services we want to co-ordinate our improvement work to where it is most needed.</li> <li>▷ Local data from our Cancer Survey.</li> </ul>
	<p>To improve <b>outpatient experience</b></p>	<ul style="list-style-type: none"> <li>▷ Our local data supports that this is an area for improvement.</li> </ul>
	<p>To improve <b>mental health care</b> for our patients coming to our acute hospital</p>	<ul style="list-style-type: none"> <li>▷ Our CQC feedback from our most recent inspection advises us that we can make improvements in this area. Our local data and The Long Term Plan supports that this is an area for improvement.</li> </ul>
	<p>To develop a <b>real time patient experience survey programme</b></p>	<ul style="list-style-type: none"> <li>▷ Our staff would like access to more real time patient experience data (Staff Survey)</li> <li>▷ Our patients would like to provide us with feedback on how we could improve.</li> </ul>

Priority quality indicator goals 2019/2020	Why we have chosen this indicator	
SAFETY	To enhance and improve our <b>safety culture</b>	<ul style="list-style-type: none"> <li>▷ National driver with the consultation for the national patient safety strategy and also the CQC Never Events report.</li> <li>▷ Our Staff Survey results</li> </ul>
	To improve our patients beginning their <b>first treatment for cancer within 62 days</b> following an urgent GP referral for suspected cancer.	<ul style="list-style-type: none"> <li>▷ National NHS Constitution target</li> </ul>
	To improve the issue of patients being lost to follow up	<ul style="list-style-type: none"> <li>▷ Local data supports this as an area of focus</li> </ul>
	To improve our prevention of pressure ulcers	<ul style="list-style-type: none"> <li>▷ The national Stop the Pressure programme led by NHS Improvement.</li> </ul>
	To prevent hospital falls	<ul style="list-style-type: none"> <li>▷ Implementing the three high impact actions</li> <li>▷ CQUIN 2019/20</li> </ul>
	To improve the <b>learning from our investigations into our serious medication errors</b>	<ul style="list-style-type: none"> <li>▷ Our local data supports this as an area of focus.</li> </ul>
	To improve our <b>care of patients whose condition deteriorates</b> and to deliver time critical care – (to include Stroke care, VTE and sepsis).	<ul style="list-style-type: none"> <li>▷ National drivers – The Long Term Plan.</li> <li>▷ Local data supports that we need to fully embed our NEWS2 system and that we appropriately respond to our patients.</li> </ul>

Priority quality indicator goals 2019/2020	Why we have chosen this indicator
<p><b>CLINICAL EFFECTIVENESS / RESPONSIVENESS</b></p>	<p>To improve our <b>learning into action systems</b> – including learning from national investigation reports as well as learning from our own local investigations (learning from deaths, complaints, Duty of Candour, serious incidents and legal claims).</p> <ul style="list-style-type: none"> <li>▷ National driver after Gosport Independent Panel findings.</li> <li>▷ Our staff tells us that this is an area where they would like to see an improvement.</li> </ul> <hr/> <p>To improve our care for <b>patients with diabetes</b></p> <ul style="list-style-type: none"> <li>▷ National Driver – Long Term Plan.</li> <li>▷ Our local data supports that this is an area that we should focus on improvements.</li> </ul> <hr/> <p>To improve our care of patients with <b>dementia</b> (including diagnosis and post diagnostic support)</p> <ul style="list-style-type: none"> <li>▷ National drivers – Long Term Plan.</li> <li>▷ Our local data supports that this is an area that we should focus on.</li> </ul> <hr/> <p>To improve our <b>nursing care standards</b> with continuation of Nursing Assessment and Accreditation Scheme (NAAS)</p> <ul style="list-style-type: none"> <li>▷ Local data supports this as an area for improvement.</li> </ul> <hr/> <p>To improve our <b>infection prevention and control standards</b> (reducing our Gram negative blood stream infections by 50% by 2021)</p> <ul style="list-style-type: none"> <li>▷ National driver</li> </ul> <hr/> <p>Rolling out of <b>Getting It Right First Time</b> standards in targeted standards</p> <ul style="list-style-type: none"> <li>▷ National driver</li> </ul> <hr/> <p>Delivering the 10 standards for <b>seven day services</b> (especially 2, 8, 5, 6)</p> <ul style="list-style-type: none"> <li>▷ National driver</li> </ul> <hr/> <p>To deliver the programme of <b>Better Births</b> (maternity care)</p> <ul style="list-style-type: none"> <li>▷ National driver</li> </ul> <hr/> <p>To improve our care of children <b>transitioning</b> to adult care</p> <ul style="list-style-type: none"> <li>▷ National driver</li> <li>▷ Local data supports this as an improvement area</li> </ul>
