Referencing

When writing for publication you will need to determine the correct referencing style to use. This will be dependent on the requirements of the journal you are writing for. Each journal will specify which style they require usually there is an author's page on the journal website, e.g. Journal of Advanced Nursing authors guidelines: [http://onlinelibrary.wiley.com/journal/10.1111/\(ISSN\)1365-2648/homepage/jan_essentials.htm](http://onlinelibrary.wiley.com/journal/10.1111/(ISSN)1365-2648/homepage/jan_essentials.htm) References are referred to in section 11

Pears, R., Shields, G. (2016) *Cite them right: the essential referencing guide*. Basingstoke: Palgrave Macmillan.

Kalucy, L. (2015) Writing for publication and writing to make a difference 2:39 Publishing in a peer reviewed journal is one valuable way of disseminating your research. Without publishing, research findings can be lost without trace. Having your work published in a reputable journal ensures you will have an enduring record of your research. Associate Professor Libby Kalucy, Editor in Chief of the Australian Journal of Primary Health, offers a few tips on how to overcome barriers to publishing in primary health care. https://www.youtube.com/watch?v=L-Tb_ILz9oE

Smith, T. (2016) Writing for publication Anglia Ruskin University Cambridge Council for Allied Health Professions Research 1:03:00 This is a lecture by Dr Toby Smith (University of East Anglia: toby.smith@uea.ac.uk; Twitter: @tobyosmith) takes a light-hearted approach to discussing how to write for publication in health and medical journals. It is designed for health professionals interested in knowing a little more about writing for publication and the publication process in health journals. This is largely based on Dr Toby Smith's own experiences and views on the publication process for clinical academics. https://www.youtube.com/watch?v=L-Tb_ILz9oE
