

Having your surgery in our community operating theatres

Did you know that if you are having certain surgical procedures with the following specialties including, but not limited to: Oral surgery, Orthopaedics, Gynaecology, Vascular, Breast, Ophthalmology and Urology, you may be able to have your surgery in one of our state-of-the-art community hospital theatres settings in Stroud, Tewkesbury or Cirencester.

Your surgery will be performed by the same consultant-led specialist team. Choosing to have your surgery in these locations can have many benefits, including:

- shorter waiting times
- easier parking
- a location that is more convenient to your home
- a quieter environment
- reduced chance of cancellation during the busy winter months.

Please ask your consultant, admission team or the pre-assessment nurse if you are eligible have your procedure at our community hospitals.

Visit our website (www.gloshospitals.nhs.uk/community-hospital-theatres) to see which operations may be scheduled in each location and ask your consultant if this would be an option for you
