

App instructions

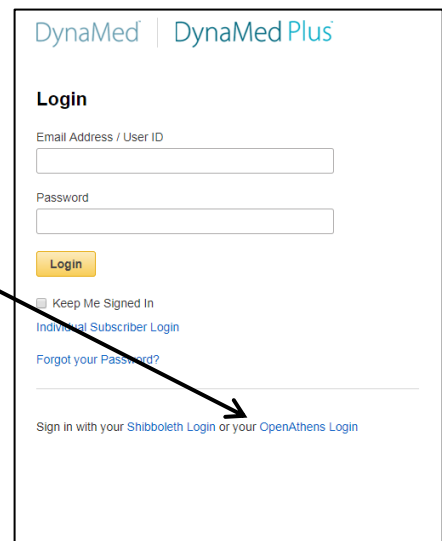

DynaMed Plus content is available via an app for phones and tablets for both IOS and Android. The app allows access to content whilst offline.

1. Visit app store and install the DynaMed Plus app on your device.

2. Go to www.dynamed.com/home/log-in on your web browser and choose the Institution subscription option

3. Click on OpenAthens login link and sign in with your NHS OpenAthens account

4. Under Spotlight on left of homepage click '**Get the DynaMed Plus Mobile App**' and enter an email address you can access on your device which sends you an authentication email

5. Access this email (check your junk folder if you can't see it), and click on the link to authenticate.

6. This should activate the app and it will start loading the content.

PLEASE NOTE: the app with content is very large – around 1GB (smaller without images), and takes a long time and a lot of data to download so we recommend you do this connected to wifi and ensure you have enough storage on your device.
