Issue 3 - Jan 25

Happy New Year from Team GSQIA!

We're looking forward to welcoming you to our training courses, supporting you and your project team and collaborating with you over the next 12 months

Upcoming Projects

GSQIA have a busy January and are delighted to welcome teams to our Silver workshops, aiming to tackle projects related to:

- Privacy and dignity standards in Paediatrics
- Paediatric sedation in ED
- Sepsis in ED
- Frailty screening in ED, and discharge process from Frailty Direct Attendance
  - Increasing the accessibility of the Staff Psychology service
    - Pharmacy patient hotline
   - Reduction in wait times for Paediatric patients arriving at ED

Spotlight on… Baseline and Ongoing Data

Data is a vital element of any QI project, from understanding that an improvement opportunity exists, to regular data collection throughout the project to evidence improvement. Once the improvement level is sustained, the project can move away from the 'active' improvement phase and into ongoing assurance.

Both Quantitative (numerical) and Qualitative (wordy) data provide valuable insight into improvement work. Consider a patient or staff story to highlight the improvement need and create a tension for change. Data, evidence and experience support is available within the Trust from TeamGSQIA as well as:

Business Intelligence, Patient Experience Improvement, Library & Knowledge Services, Staff Experience

Next Silver Graduation – Tues 10th Feb from 9am (REC)

We've got two busy graduation sessions running in parallel, in the lecture hall (mixed topics) and F9 (Maternity) – please do come along to support your colleagues and find out about all the amazing work that has been undertaken over the last few months
