Debrief Session	1 st Oct

Alongside Health Inequalities, Brilliant Basics and Green Sustainability, Continuous Improvement has been recognised in the Trust Strategy as one of the Golden threads that runs through everything we do, empowering staff to make innovation and improvement happen, and involving patients in what really matters to them.

Health inequalities

Working with our communities to prevent illness and tackle health gaps

Continuous improvement

Involving staff and patients to make innovation and improvement happen

Brilliant basics

Simple actions that when done well and consistently, make a difference to patients and staff

Green sustainability

Our actions must be green, fair, and affordable

Every one of us has the ability to make a real difference, no matter our role or grade. Starting your quality improvement journey is a chance to spark new ideas, strengthen your skills, and help create better experiences for patients and colleagues alike. Even small changes can lead to a big impact and your insight, energy, and commitment can help drive that positive change. Your journey starts with one step, and #TeamGSQIA are excited to see where it takes you.
